Connecticut law authorizes the school nurse and other qualified school personnel in all public schools to maintain opioid antagonists (Narcan) for the purpose of administering emergency first aid to students who experience an opioid-related drug overdose and do not have a prior written authorization of a parent or guardian or a prior written order of a qualified medical professional for the administration of opioid antagonists. State law permits the parent or guardian of a student to submit a written directive to the **school nurse or school medical advisor** that opioid antagonists shall not be administered to such student in emergency situations. **This form is provided for those parents who refuse to have opioid antagonists administered to their child.** The refusal is valid for only for the 20__-20__ school year.
