

## **Additions, Reductions, or Deletions of Program**

### Policy

In its continuing efforts to provide for public reaction and opinion concerning Board of Education programs, the Board of Education will take no action on program additions, reductions or deletions without introducing same at one meeting for action at the next regular or, if appropriate, special Board of Education meeting. At the first meeting where the issue or topic is introduced to the Board of Education, the Board, in turn, will inform interested parties at that meeting where and with whom they could register their opinions prior to the next meeting of the Board of Education.

In case of emergency, the Board of Education would, by vote, rescind this policy to take action at the meeting when a program addition, reduction or deletion was initiated.
