

THE SCHOOL DISTRICT OF TORRINGTON, CONNECTICUT

RESPONDING TO PARENT CONCERNS ABOUT STUDENT TRANSPORTATION

The Torrington Board of Education's Policy 6200 entitled *Transportation Policy* is consistent with the statutes of the State of Connecticut. The policy details the obligations for transportation for students in grades K through 12. The Board recognizes, however, the concern which parents have for the safety of their children. It encourages parents to communicate concerns to the Board's bus contractor and/or the school administration. The Board's bus contractor will respond to issues raised by parents and will do what it can to resolve them within reason. The school administration will work with the bus contractor to resolve parental concerns.
